Our 5 business activities are complementary and enable you to combine safety and performance at every stage of your projects.

Inspection

We check the reliability of your facilities, equipment, structures, infrastructures and buildings to keep them compliant during commissioning as well as operation.

Training

We are the leader in Risk Management and Safety training. Our unique model using trainer-inspectors enables 350,000 people each year to take part in training that culminates in certification, a real credential for their professional futures.

Tests & Measurements

We carry out testing of all types using simulators that reproduce actual stresses. We also take air, water and soil samples and measurements to monitor their quality and better manage your risks and impact on the environment.

Consulting and Technical Support

We help you improve the health and safety of people and property, preserve the environment and optimize the performance of your installations and equipment.

Certification & Labelling

We certify your systems dedicated to management, skills, products or services. We also define labels in line with a strict reference framework.

BORDEAUX AIRPORT, FRANCE

GUADELOUPE INTERNATIONAL AIRPORT, FRANCE

INTERNATIONAL AIRPORT OF OUAGADOUGOU, BURKINA FASO

Founded in 2003 by Mathieu Chazelle, architect and engineer, Simon Pallubicki, architect and cabinetmaker, and Brice Piechaczyk, architect and engineer, ENIA is one of the top architecture and design firms in France.

Based in France and India, ENIA brings together more than 100 professionals from 34 nationalities that has completed a wide range of projects mainly in Europe, Asia, and Africa, including numerous transport infrastructures (airports, railway stations, or ferry terminals).

This dynamic is strengthened by the research and foresight activity conducted by the firm since its creation, through its internal research structure *eniaLAB*.
It is involved in a wide variety of topics and has made the development of new tools and methods (e.g. optimization of decision-making), one of its areas of expertise.
